

HIK-CONNECT – HOW TO SHARE A DEVICE TO ANOTHER USER

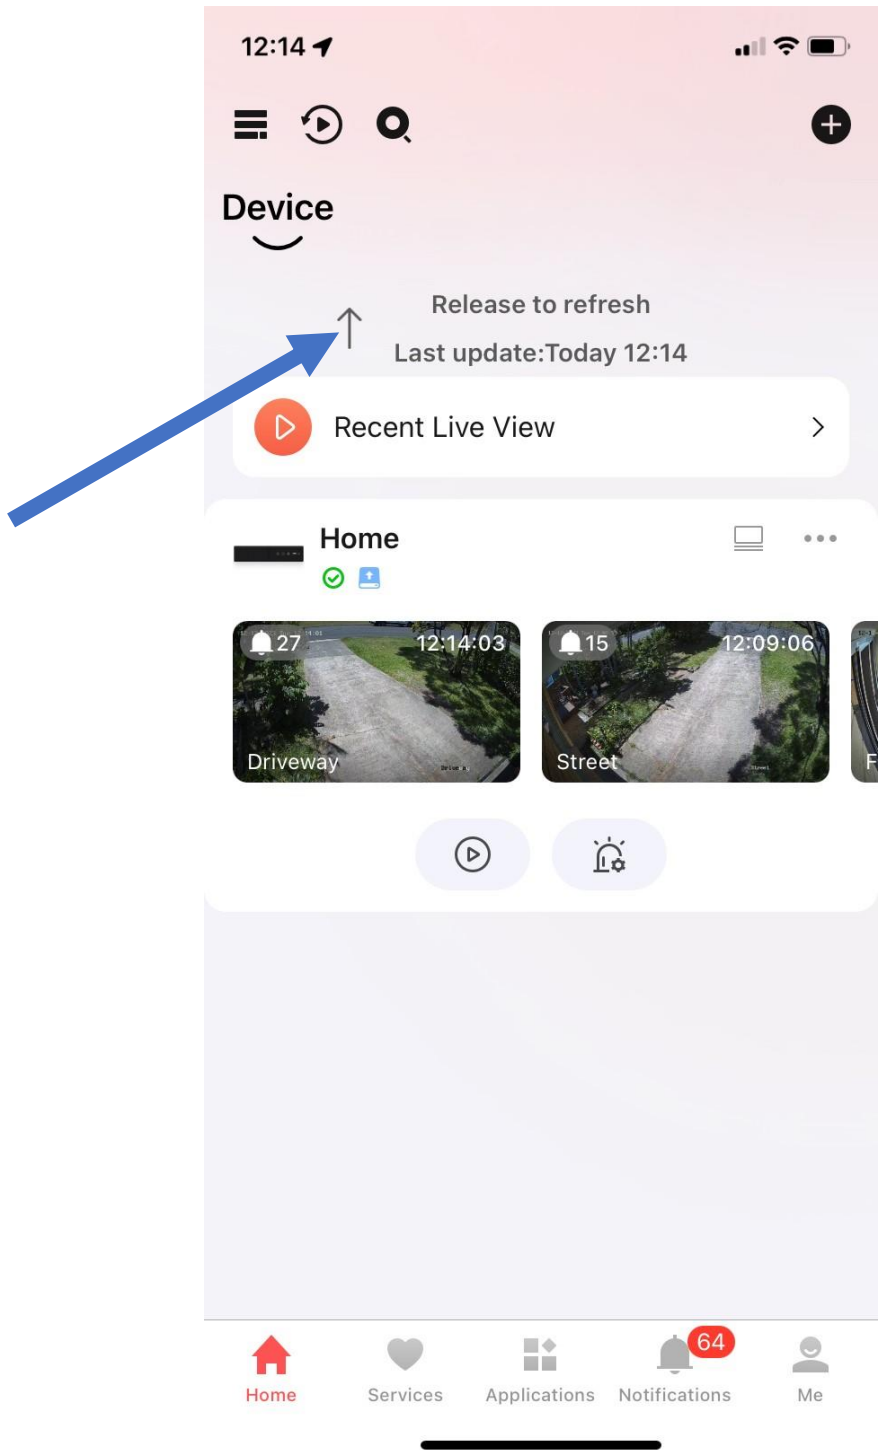

NOTE 1: TILE VIEW

This manual is presented in 'Tile View', if you are using the app in 'List View', you can change to 'Tile View' using this button.

NOTE 2: REFRESH

Always 'drag the screen down and release' to refresh the page and get the latest status/information from the system.

MASTER USER

The 'Master User' is the user who first had the device added to their account. This user can share the device to other users.

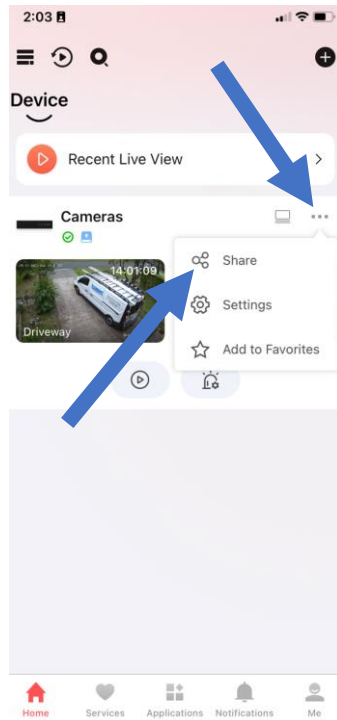

SHARING TO OTHER USERS

If the person you are sharing to doesn't have their own account, they need to register their own account before proceeding. See the manual 'How to Download the App and Register an Account'.

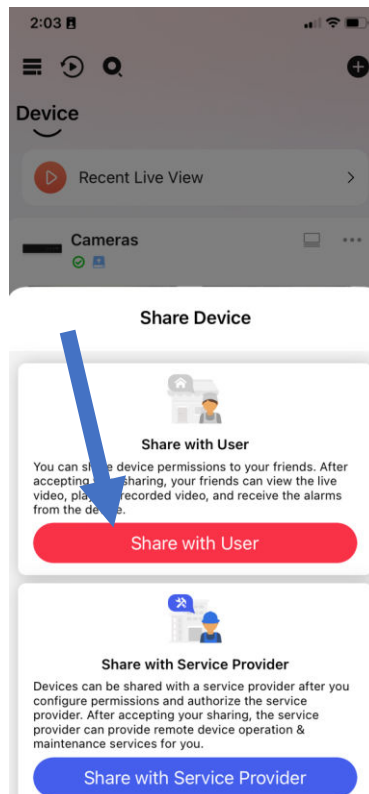

It is not recommended for multiple people to be logged into the same account.

PART 1: SHARING THE DEVICE TO ANOTHER USER

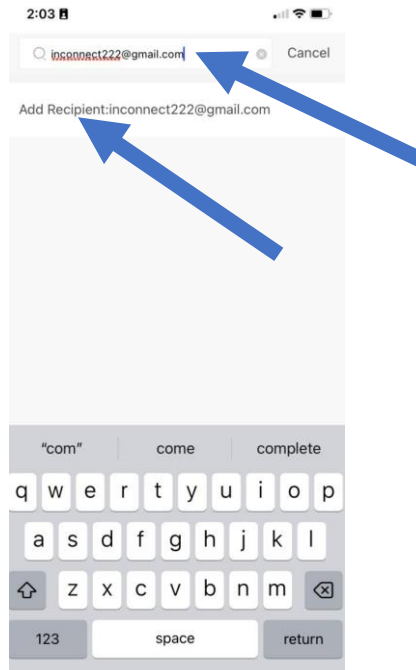

Press 'Options' > 'Share'

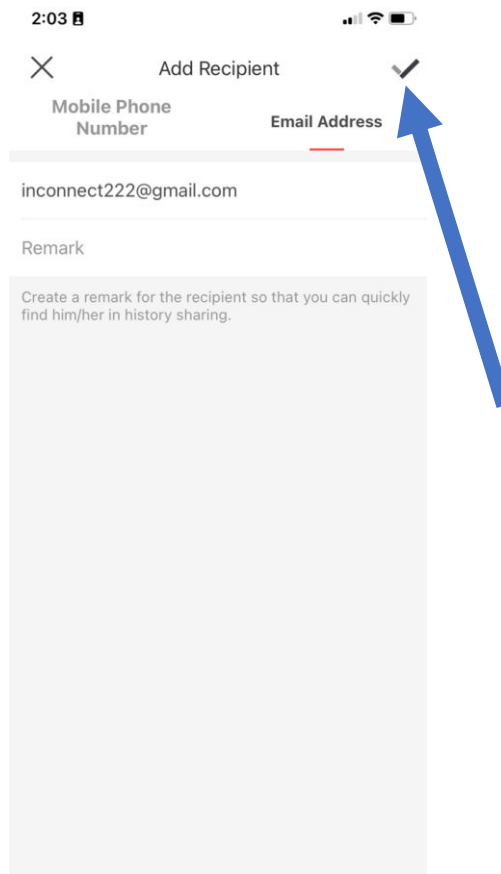

Press 'Share with User'.

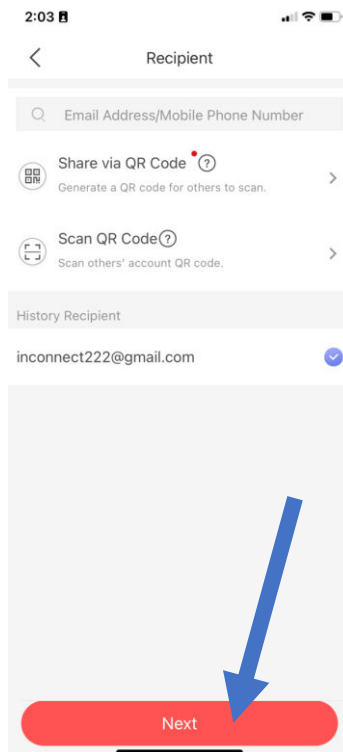

Enter the other user's username (phone number or email address), then press 'Add Recipient'.

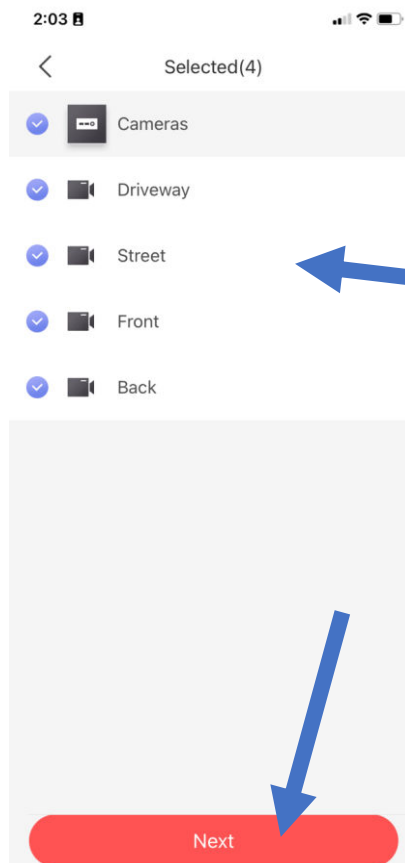

Press 'Tick'.

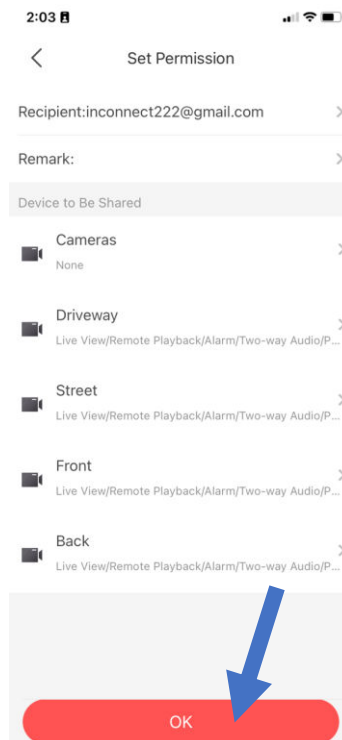

Press 'Next'.

Confirm which devices you want to share, then press 'Next'.

Confirm what permissions you want the user to have (normally, this is left as all permissions), then press 'OK'.

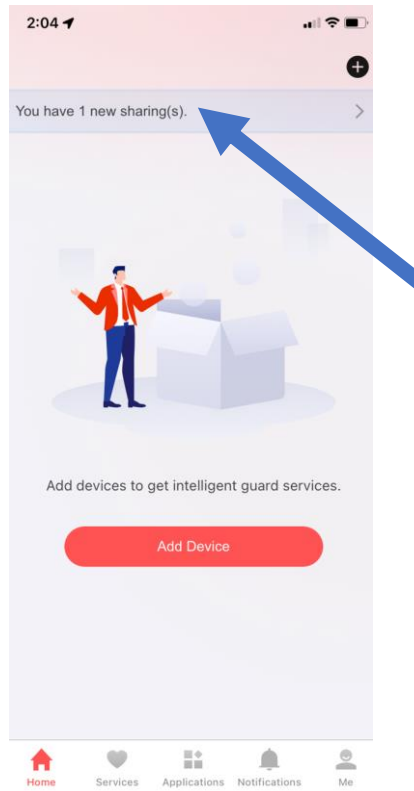

You have now successfully shared the device to the other user.

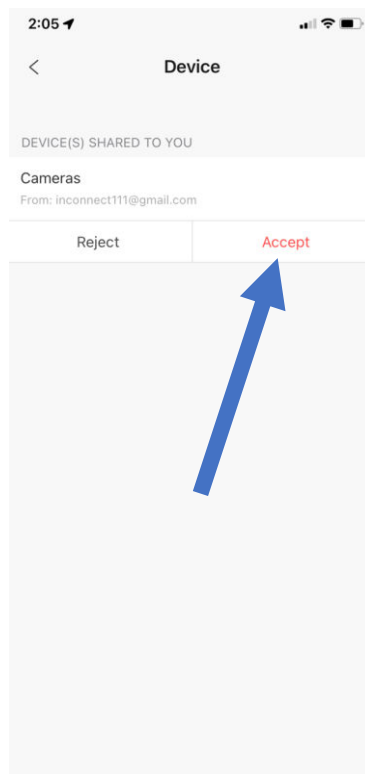

See below for how the other user accepts the device.

PART 2: THE OTHER USER ACCEPTS THE INVITATION

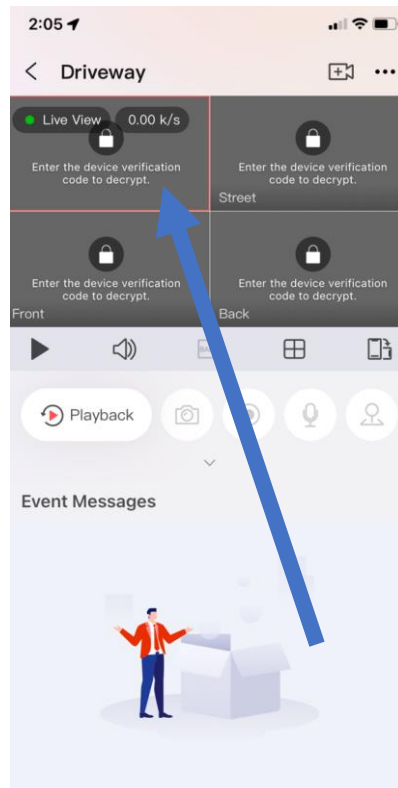

The other user will receive a sharing invitation on their app.

The other user accepts the sharing invitation.

The other user can now see the device. They may be prompted for a 'Verification/Encryption' code.

Enter the 'Verification/Encryption' code. Your installer will have provided this to you.
