# 59. HOW TO VIEW FOOTAGE FROM A USB STICK USING VSPLAYER (JUNE 2025)
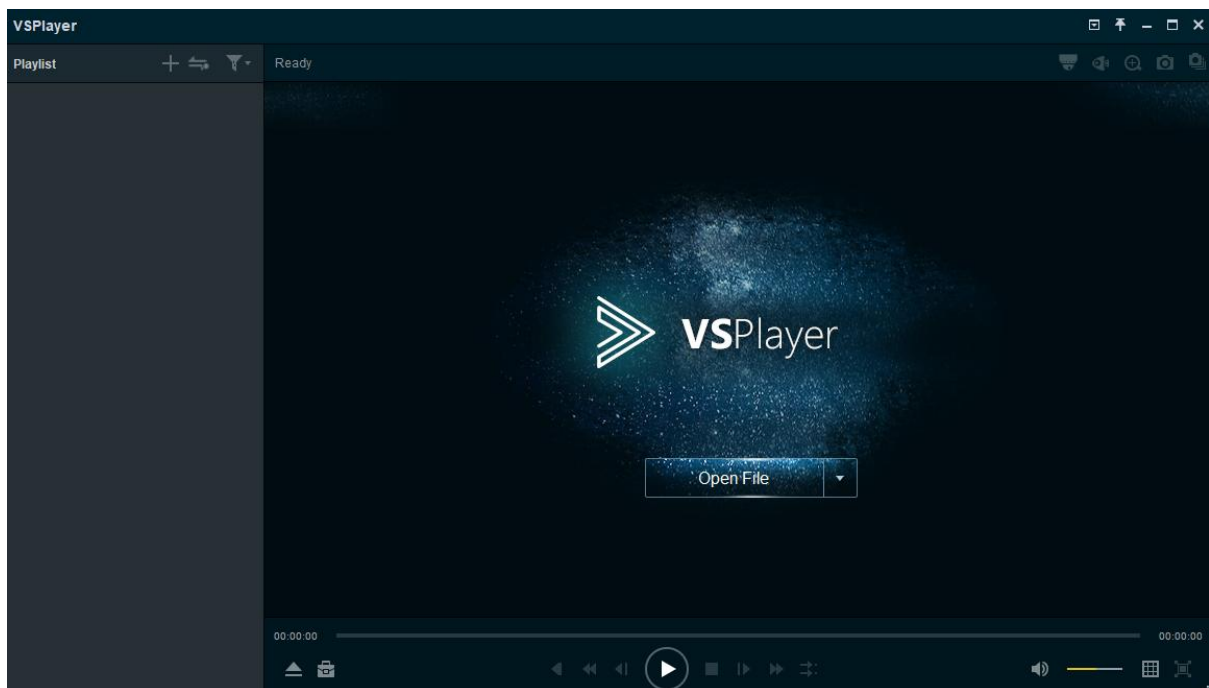

STEP 1

Open VSPlayer on your PC.

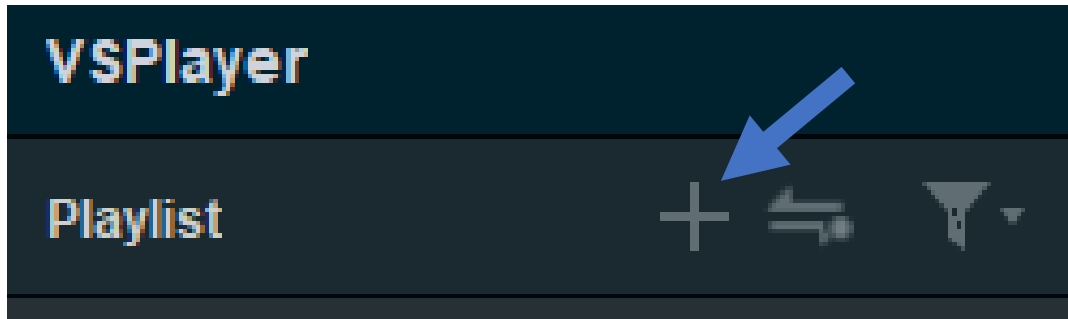

STEP 2

Confirm VSPlayer is open.

STEP 3

Click the '+' icon in the top left hand corner (Open File).

STEP 4

Go to the USB Stick.

Go to the CCTV Downloads USB folder.

STEP 5

Find the selected video you want to watch.

Driveway_West
_Cameras_Ca
meras_2025061
2130005_202...

STEP 6

Hover your mouse over the video and confirm it is a MP4 file (video) and not a JPG file (picture).

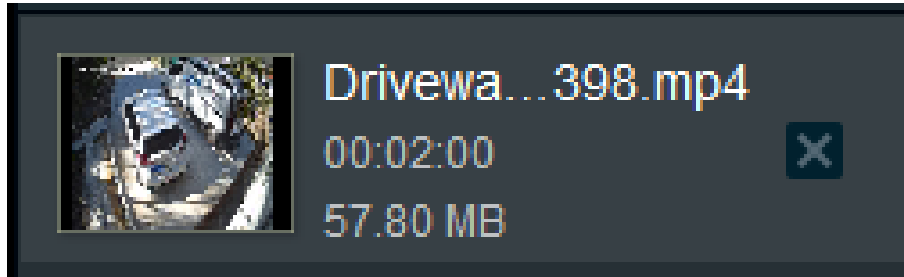

STEP 7

Double click on the file to add it to the playlist.

## STEP 8

Select the file in the playlist.

STEP 9

Press Play.

STEP 10

Press Pause.

STEP 11

Right click in the middle of the screen.
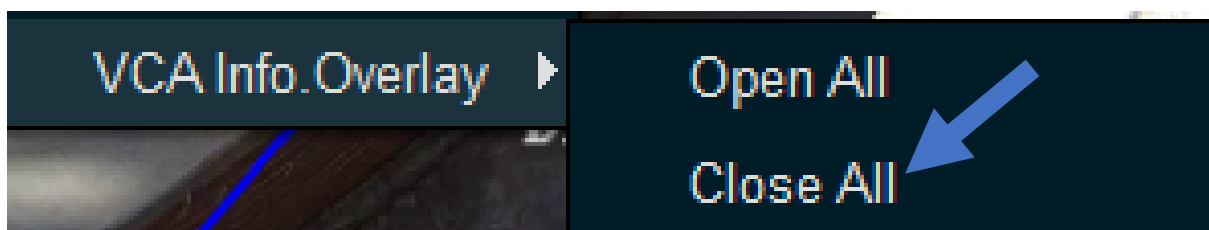

Go to Image Control.

Go to VCA Info Overlay.

STEP 12

Press Close All.

STEP 13

Press Play.

STEP 14

You can use the various controls at the bottom of the screen including:

Play

Pause

Stop

Single Frame Forward

Fast Forward (up to 16x)

Single Frame Backward

Fast Reverse (up to 16x)

Play in Reverse

STEP 15

You can add additional clips to the playlist by clicking the + icon in the top left hand corner (Open File).
